

Scientific publications about the Faroe Islands, 2010

Vísindaritverk 2010

This list for 2010 is compiled to show the scientific work going on within and out-with the institutions in the Faroe Islands. It should in this way be easier for the readers of *Fróðskaparrit* to have an idea of the different Faroese projects the scientists are working on and make it easier to acquire papers and books. The list also includes papers and books made by scientists outside the Faroese institutions, and whenever possible, the editorial office of *Fróðskaparrit* can provide contact addresses of the author(s). Moreover, this list also includes some papers missed out in pervious numbers of *Fróðskaparrit*.
