

# Scientific publications about the Faroe Islands, 2000

Vísindaritverk 2000

This list for 2000 is compiled to show the scientific work going on within and out-with the institutions in the Faroe Islands. It should in this way be easier for the readers of *Fróðskaparrit* to have an idea of the different Faroese projects the scientists are working on and make it easier to get hold of the papers and books. The list also includes papers and books made by scientists outside the Faroese institutions, and whenever possible, the editorial office of *Fróðskaparrit* can help with the address of the author(s).
